

LSM4199 HONOURS PROJECT IN LIFE SCIENCES (16 MC)

Project Mounting & Registration for LSM4199 Cohort AY18/19 S1

Students commencing LSM4199 Honours Project in Life Sciences in Semester 1 of AY2018/19 will be in the LSM4199 Honours Project Cohort of AY18/19 S1.

For students intending to start LSM4199 in AY2018/19 Semester 1

1. Please read and adhere to the [LSM4199 Guide for Students](#) which include registration instructions for projects for LSM4199.
2. Students should approach eligible main supervisors to seek project opportunities. Visit http://www.lifesciences.nus.edu.sg/modules/lsm4199/LSM4199_List_of_eligible_supervisors.xls for the list of eligible supervisors.
3. Registration for a project should be completed at the start of AY2018/19 Semester 1, **Wed 15th August 2018**.

For faculty members intending to be LSM4199 Honours Project Main Supervisors

1. Please read, understand and adhere strictly to the [LSM4199 Guide for Supervisors](#).
2. If you have been approached and have agreed to offer project and supervision to students from the LSM4199 cohort here-mentioned, or if you would like to offer projects for students to select, please mount the projects and approve the students for the relevant projects. **Please note the project area has to match the student's specialisation in Life Sciences Major.**
3. Projects are mounted at LSM4199 USPAS portal – <https://aces.nus.edu.sg/ugspa/staff/login>
4. Approving students to projects is done at the same portal. **Kindly note that this is an in-principle approval for the student. The criteria to read LSM4199 would still need to be fulfilled. Failure to meet so before the start of the Semester 1 would automatically make the project approval invalid.**
5. If you encounter problems in registering/approving the student, please forward his/her details (full name, matriculation number and contact number) to Mr Lim Miah Kyan dbslmk@nus.edu.sg.

For enquiries on LSM4199, please contact Mr Lim Miah Kyan, LSM4199 Overall Administrator, at dbslmk@nus.edu.sg.
